

# Alpaca Familiarization

Monday, April 22, 2024 · 10 am–noon  
Moyock, North Carolina · **FREE**

Alpacas are members of the camel family, domesticated by the people of the Peruvian Andes about 6,000 years ago for food, fuel (dung), and fiber. Prized for their fleecy coats, they boast a variety of 22 coat colors. Familiarization will include information about breeding techniques, standard diet, socialization and demeanor, lifespan and lifecycle. A short walk around the farm will conclude this workshop.
