

Basic Beekeeping

Saturday, March 16, 2024 · 1-5 pm · *FREE*
Salem, Virginia · *Space is limited to 10 participants.*

Bee ownership is more than just the sweet taste of honey! Join us for the opportunity to see the inner workings of a beehive. This workshop will give you a basic understanding of what it takes to start your own hive, from site location to queen management, including an overview of what kinds of tools and equipment you need and the knowledge to treat pests and diseases. This workshop will be held near several working hives. The use of perfume, cologne, or scented body lotion is strongly discouraged in order to maintain a calm and docile environment for the bees. Please wear light-colored clothing and closed-toe shoes.
