

Beginning Farm Recordkeeping Using Quicken

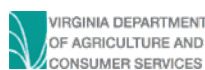

Tuesday, May 28, 2024 · 3–5 pm · **FREE**
Rockfish Valley Community Center, 190 Rockfish School Lane,
Afton, VA · *Space is limited to 12 participants.*

Farming is a business; good recordkeeping is essential for a successful farming operation. These records will provide valuable information on which methods work best on your farm. They can help plan a realistic forecast for the coming year and may also be a requirement for lending institutions. Quicken helps farmers track account balances, budgeting, and farm expenses. End-of-the-year tax information is more straightforward to compile, and financial decisions and banking concerns are streamlined. Join us to discuss the records and receipts you should keep on the farm.
